Claims 1-4 are allowable because the prior art fails to disclose or make obvious, either singly or in combination, a diffraction laser encoder apparatus comprising, in addition to the other recited features of the claim, "a polarization beam splitter assembly comprising a polarization beam splitter for receiving said source beam into parallel and offset beams and a focusing lens assembly comprising a focusing lens for focusing said P-polarization component and said S-polarization component beams onto said target diffraction grating and returning diffracted P-polarization and diffracted S-polarization beams back into said polarization beam splitter for generating a detector beam coaxially containing said diffracted P-polarization and said diffracted S-polarization beams".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
